

LLRM MEDICAL COLLEGE, MEERUT

Schedule Year planner for MBBS Batch 2021(3rd Prof. Part 1)

	Color shade	Used for
1.		Serial number
2.		Time, Date & Day of Year & Sundays
3.		Government holidays
4.		Lunch
5.		Clinical Postings
6.		S&ECA
7.		Terminals
8.		Forensic Medicine & Toxicology
9.		Community Medicine
10.		General Medicine
11.		General Surgery
12.		Obstetrics & Gynaecology
13.		Orthopedics
14.		ENT
15.		Ophthalmology
16.		Paediatrics

	Abbreviation	
1.	L	Lecture
2.	DOAP	Demonstrate (by Student) Observe, Assist Perform
3.	SGD	Small Group Discussion
4.	SGL	Small Group Learning
5.	SDL	Self-Directed Learning
6.	FM	Forensic Medicine and Toxicology
7.	CM	Community Medicine
8.	IM	General Medicine
9.	SU	General Surgery
10.	OG	Obstetrics & Gynaecology
11.	EN	ENT (Ear, Nose and Throat) [Otorhinolaryngology]
12.	PE	Paediatrics
13.	OR	Orthopaedics
14.	S&ECA	Sports & Extra-curricular Activities
15.	AETCOM	Attitude, Ethics And Communication Module
16.	OP	Ophthalmology

Weekly Planner for 3rd year MBBS Part 1 - 2021 batch

Day	8-9 am	9-12 noon	12-01 pm	01-02pm	02-03 pm	03-04 pm
Monday	OBGY (lecture)	Clinical posting	Ophthalmology / Community Medicine (lecture)	Lunch	ENT / Community Medicine (demo)	ENT / Community Medicine (demo)
Tuesday	Surgery (lecture)		Community Medicine (lecture)		FMT (demo)	FMT (demo)
	4 th Tuesday: Orthopedics (lecture)					
Wednesday	OBGY (lecture)		ENT / Orthopedics (lecture)		Medicine (demo)	Medicine (demo)
Thursday	Paediatrics (lecture)		OBGY (demo)		4 th Wednesday: PANDEMIC MODULE (demo)	4 th Wednesday: PANDEMIC MODULE (demo)
Friday	Medicine (lecture)		FMT (lecture)		Community Medicine (demo)	Community Medicine (demo)
Saturday	Medicine (lectures)		AETCOM		Ophthalmology / Paediatrics (demo)	Ophthalmology / Paediatrics (demo)
			4 th Saturday: Orthopedics (demo)	4 th Saturday: Orthopedics (demo)		

As per NMC module (3rd professional part 1) AETCOM:

Total no. of hrs	31
Community Medicine	04
FMT	17
ENT	05
Ophthalmology	05

*All AETCOM modules shall be taken as small group teachings/ self-directed learnings

Total no. of hrs in PANDEMIC MODULE (3rd professional year) = 18

All of 3rd prof. – PART 1, Pandemic modules to be taken by Dept. of Community Medicine.

o	DAY, DATE & YEAR	8-9 A.M	9 AM – 12 NOON	12-01 P.M	1-2 PM LUNCH	2-3PM	3-4 PM
	Monday, April 1, 2024	OG 1.1 Define and discuss birth rate, maternal mortality and morbidity [integration with community medicine		OP 1.1 (L) Describe the physiology of vision OP 1.2 (L) Define, classify and describe the types and methods of correcting refractive errors		(DOAP)EN.2.4- correct technique of performance and interpret tuning fork test	(DOAP)EN.2.8-correct technique to perform and interpret pure tone audiogram and impedance audiogram
	Tuesday, April 2, 2024	SU 1.3 Discuss on basic concepts of perioperative care of surgical patients		CM7.1 (L) Define Epidemiology and describe and enumerate the principles, concepts, and uses of epidemiology		FM 3.3 Mechanical Injury Injury	FM 3.4 Injury types
	Wednesday, April 3, 2024	OG6.1 SGD Describe & discuss the clinical features of pregnancy		EN 1.1- describe the salient features of embryological development of ear		IM 21.2 Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and specific approach to detoxification.	IM 21.2 Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and specific approach to detoxification.
	Thursday, April 4, 2024	PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development PE1.5		20.2(a) DOAP In a simulated environment, how to counsel a client for MTP (Inregration with forensic medicine-H)		CM 7.8 SGD Describe the principles of association, causation and biases in epidemiological studies	

		Define development and discuss the normal developmental mile stones with respect to motor, behaviour, social, adaptive and language				
Friday, April 5, 2024	IM 14.14 Describe and enumerate the indications and side effects of bariatric surgery. Part 1		FM 2.20 Mechanical Asphyxia		OP 1.1 (SGD) Describe the physiology of vision	OP 1.2 (SGD) Define, classify and describe the types and methods of Correcting refractive errors
Saturday, April 6, 2024	IM 14.14 Describe and enumerate the indications and side effects of bariatric surgery. Part 2		FM (AETCOM) 14.5 PM Demonstration		SU 4.4 Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care	
Sunday, April 7, 2024						
Monday, April 8, 2024	OG 1.2,18.3 Define and discuss perinatal mortality and morbidity [including audit]. Describe and discuss the diagnosis of birth asphyxia		OP 1.4 (L) Enumerate the indications and describe the principles of refractive surgery OP 1.5 (L) Define, enumerate the types and the mechanism by which strabismus leads to amblyopia		(DOAP)EN.4.2- describe the clinical features, choose the correct investigations and describe the principles of management of diseases of external ear	(SDL) EN.4.51 care of a patient with tracheostomy (stoma care, suction, management of cuff) Describe care of a patient with tracheostomy
Tuesday, April 9, 2024	SU 5.3 Classify different types of wound and their management		CM 7.2 (L) Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases		FM 3.5 Injury (SGD)	FM 3.6 Injury (SGD)
Wednesday, April 10, 2024	OG8.1 SGD Discuss the objectives of antenatal care & screening for high-risk factors		EN1.2 describe anatomy of external ear		IM 21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical	IM 21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical

				EN 1.3 describe anatomy of middle ear		features, prognosis and approach to therapy.	features, prognosis and approach to therapy.
1	Thursday, April 11, 2024						
2	Friday, April 12, 2024	IM 20.1 Enumerate the local poisonous snakes and describe the distinguishing marks of each.		FM 2.21-2.22 Hanging/strangulation		OP 1.3 (DOAP) Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes	OP 1.4 (SGD) Enumerate the indications and describe the principles of refractive surgeries
3	Saturday, April 13, 2024	IM 20.8 Describe the diagnosis, initial approach stabilisation and therapy of scorpion envenomation.		CM (AETCOM) 3.5A Identify, discuss and defend medico-legal, socio-cultural, professional and ethical issues as it pertains to the physician – patient relationship (including fiduciary duty)		Define and describe the aetiology and pathogenesis of surgical infection	
4	Sunday, April 14, 2024						
5	Monday, April 15, 2024	OG 1.3 Define and discuss the Still birth (Integration-Forensic Medicine)		OP 2.1 (L) Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal , cellulitis, dacryocystitis,		(DOAP)EN4.1-describe the clinical features, choose the correct investigations and describe the principles of management of otalgia	(DOAP)EN.4.2- describe the eustachian tube anatomy, physiology, and function test

				hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos			
6	Tuesday, April 16, 2024	SU 16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery SU12.2 Methods of estimation and requirement of fluid, Electrolyte in a surgical patient		CM 7.3 (L) Enumerate, describe and discuss the sources of epidemiological Data.		FM 3.8 Types of weapons	FM 3.9 FIREARM INJ
7	Wednesday, April 17, 2024						
8	Thursday, April 18, 2024	PE 6.1 Define Adolescence and stages of adolescence PE 6.2 Describe the physical, physiological and psychological changes during adolescence (Puberty		15.1 SGD Enumerate and describe the indications, steps, technique and complications of episiotomy.		CM 7.6 SGD Enumerate and evaluate the need of screening tests	
9	Friday, April 19, 2024	IM 20.3 Describe the initial approach to the stabilisation of the patient who presents with snake bite.		FM 2.23 Drowning		OP 1.5 (SGD) Define, enumerate the types and the mechanism by which strabismus leads to amblyopia,	OP 2.1 (SGD) Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lagophthalmos

0	Saturday, April 20, 2024	IM 21.6 Commonly observed Drug overdose, their toxicology, clinical features, prognosis and approach.		FM (AETCOM) 14.5 PM Demonstration		SDL SU1.3 Perioperative management of common surgical procedure	SU11.4 SGD Enumerate the indications and principles of day care General Surgery
1	Sunday, April 21, 2024						
2	Monday, April 22, 2024	OG 8.4(a) Describe and demonstrate clinical monitoring of fetus and maternal wellbeing during antenatal period (Antenatal care)		OP 2.4 (L) Describe the aetiology, clinical presentation and Discuss the complications and management of orbital cellulitis OP 2.5 (L) Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis		(DOAP)EN.4.3-describe the clinical features, choose the correct investigations and describe the principles of management of asom	(DOAP)EN 4.5- describe the clinical features, choose the correct investigations, and describe the principles of management of asom
3	Tuesday, April 23, 2024	OR2.4.2 "Describe and discuss the mechanism of injury, clinical features, investigations and plan management of fracture of shaft of humerus with emphasis on neurovascular deficit."		CM 7.4 (L) Define, calculate and interpret morbidity and mortality indicators based on given set of data		FM 3.10 Firearm injuries	FM 3.11 Regional Injuries
4	Wednesday, April 24, 2024	OG 8.3 DOAP Demonstrate and perform an obstetrical examination including a general and abdominal examination.		EN 1.4 describe the salient features of anatomy of internal ear including labyrinth, inner ear fluids, internal auditory canal, organ of Corti, blood supply, central		PANDEMIC MODULE: CM 3.1 Outbreak Management including Quarantine, Isolation, Contact tracing.	
5	Thursday, April 25, 2024	PE 7.2 Explain the physiology of lactation		15.2 & 35.14 SGD Observe and assist in the performance of an episiotomy and demonstrate the correct		CM 7.7 SGD	

		<p>PE 7.3</p> <p>Describe the composition and types of breast milk and discuss the differences between cow's milk and Human milk</p> <p>PE7.4</p> <p>Discuss the advantages of breast milk</p>		<p>suturing technique of an episiotomy in a simulated environment</p>		<p>Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures.</p>
6	<p>Friday, April 26, 2024</p>	<p>S&ECA</p>		<p>FM 2.24 Thermal Deaths</p>		<p>OP 2.2 (DOAP) Demonstrate the symptoms & clinical signs of conditions enumerated in OP2.1</p> <p>OP 2.3 (DOAP) Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. Massage technique in congenital dacryocystitis, and trichiasis cilia removal by epilation</p>
7	<p>Saturday, April 27, 2024</p>	<p>IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host.</p>		<p>CM (AETCOM) 3.5A</p> <p>Identify, discuss and defend medico-legal, socio-cultural, professional and ethical issues as it pertains to the physician – patient relationship (including fiduciary duty)</p>		<p>2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartment syndrome</p>
8	<p>Sunday, April 28, 2024</p>					

9	Monday, April 29, 2024	OG 8.4 (b) Describe and demonstrate clinical monitoring during intrapartum period.		OP 2.6 (L) Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis OP 2.7 (L) Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours OP 2.8 List the investigations helpful in diagnosis of orbital tumors		(DOAP)EN1.5-describe the important aspects of physiology of vestibular system	(SDL) EN.4.30.4 describe the principles of management of epistaxis including resuscitation,local measures, nasal packi
0	Tuesday, April 30, 2024	SU13.1 Describe the immunological basis of organ transplantation		CM 7.5 (L) Enumerate, define, describe, and discuss epidemiological study designs		FM 3.11 Regional Injcont	FM 3.11 Vert Integration Regional Inj (Sx Ortho)
1	Wednesday, May 1, 2024	OG8.4 SGD Discuss antenatal fetal monitoring		EN.1.6 describe the physiology of hearing,conduction of sound,transformer mechanism of middle ear,neurotransmission of sound		21.6 SGD Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning.	21.6 SGD Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning.
2	Thursday, May 2, 2024	PE9.1 Describe the age-related nutritional needs of infants, children and adolescents including micronutrients and vitamins PE9.2 Describe the tools and methods for assessment and classification of		8.6 DOAP Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy.		CM 8.4 SGD Describe the principles and enumerate the measures to control a disease epidemic	

		nutritional status of a infants, children and adolescents					
3	Friday, May 3, 2024	IM 20.6 Choose and interpret the appropriate diagnostic testing in patients with snake bites.		FM 2.25 Electrocutation		OP 2.4 (SGD) Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis	OP 2.5 (SGD) Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis
4	Saturday, May 4, 2024	IM Revision class		FM (AET) 14.5 PM Demonstration		SGD SU 19.2 Describe the Principles of reconstruction of cleft lip and palate	
5	Sunday, May 5, 2024						
6	Monday, May 6, 2024	OG 20.1 Describe and discuss the legal aspects, indications and methods of MTP in first and second trimester. (Integration-Forensic medicine)		OP 3.3 (L) Describe the aetiology, pathophysiology ocular features, differential diagnosis, complications and management of various causes of conjunctivitis		(SDL) EN.2.8 interpret pure tone audiogram and impedance audiogram	(SDL) EN.2.15 describe the national programmes for prevention of deafness, cancer, noise and environmental pollution
7	Tuesday, May 7, 2024	Describe classification of hospital waste and appropriate methods of disposal.		CM 7.5 (L) Enumerate, define, describe, and discuss epidemiological study designs		FM 3.12 Head injuries	FM 3.12 Head injuries
8	Wednesday, May 8, 2024	OG8.4 DOAP Demonstrate the intranatal fetal monitoring		EN 4.6-describe the clinical features choose the correct investigations and describe the principles of management of discharging ear		IM 3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia	IM 3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia

						pneumonia and aspiration pneumonia
9	Thursday, May 9, 2024	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and evaluation		17.1 SGD Discuss the physiology of lactation.		CM 8.5 SGD Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease
0	Friday, May 10, 2024					
1	Saturday, May 11, 2024					
2	Sunday, May 12, 2024					
3	Monday, May 13, 2024					
4	Tuesday, May 14, 2024					
5	Wednesday, May 15, 2024					
6	Thursday, May 16, 2024					

7	Friday, May 17, 2024					
8	Saturday, May 18, 2024					
9	Sunday, May 19, 2024					
0	Monday, May 20, 2024					
1	Tuesday, May 21, 2024	SU17.3 Describe the Principles in management of mass Casualties		Epidemiology of Respiratory infections CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases	FM 3.13 SEXUAL Offences	FM 3.14-15 Examination of Survivor & Accused
2	Wednesday, May 22, 2024	OG14.1 DOAP Enumerate and discuss the diameters of maternal pelvis and fetal skull		EN.4.7-describe the clinical features,choose the correct investigations and describe the principles of management of tubotympanicccsom	PANDEMIC MODULE: CM 3.1 Outbreak Management including Quarantine, Isolation, Contact tracing.	
3	Thursday, May 23, 2024					
4	Friday, May 24, 2024	S&ECA		FM 2.26 Starvation	OP 2.6 (SGD) Enumerate the causes and describe the differentiating features, and	OP 2.7 (SGD) Classify the various types of orbital tumours. Differentiate the symptoms and signs of the

					clinical features and management of proptosis	presentation of various types of ocular tumour
5	Saturday, May 25, 2024	IM 6.18 Enumerate the indications and discuss prophylactic drugs used to prevent HIV related opportunistic infections		FM (AET) 2.18 Crime scene investigation	ORTHO SDL 5 OR 2.5 Management of Paediatric forearm fractures.	2.6 Difference between paediatric and adult fractures
6	Sunday, May 26, 2024					
7	Monday, May 27, 2024	OG 21.1(a) Describe and discuss the indications, technique, complications, selection of patient, side effects and failure rate of temporary method of contraception.		OP 3.4 (L) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma	(DOAP)EN.4.21-describe the clinical features, investigations and principles of management of tinnitus	(DOAP)EN.4.21-describe the clinical features, investigations and principles of management of tinnitus
8	Tuesday, May 28, 2024	OR1.2 Describe and discuss the aetiopathogenesis, clinical features, Investigations, and principles of management of shock.		CM 7.5 (L) Enumerate, define, describe, and discuss epidemiological study designs	FM 3,16 REPORT WRITING OF SEXUAL ASSAULT	FM 3,16 REPORT WRITING OF Unnatural Sexual Offence
9	Wednesday, May 29, 2024	OG14.1 SGD Discuss the various types of maternal pelvis		EN.8.5-describe the clinical features, choose the correct investigations and describe the principles of management of extra cranial complications of csom	IM 6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections.	IM 6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections.
0	Thursday, May 30, 2024	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program		20.2(b) DOAP In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy	CM 8.6SGD Educate and train health workers in disease surveillance, control & treatment and health education	

		PE19.2 Explain the epidemiology of Vaccine preventable diseases		(Inregration with forensic medicine-H)			
1	Friday, May 31, 2024	IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia.		FM 2. 27-28 Infanticide and IUD		OP 2.8 (SGD) List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral	OP 3.1 (DOAP) Elicit document t and present an appropriate history in a patient presenting with a “red eye” including congestion, discharge, pain
2	Saturday, June 1, 2024	IM 6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions		FM (AETCOM) 14.5 PM Demonstration		Describe and discuss the clinical features of hypo and hyperparathyroidism and the principles of their management	
3	Sunday, June 2, 2024						
4	Monday, June 3, 2024	OG 21.1 (b) Describe and discuss the indications, technique, complications, selection of patient, side effects and failure rate of permanent method of contraception and emergency contraception.		OP 3.5 (L) Describe the aetiology, Pathophysiology ocular features, differential diagnosis, complications and management of vernalcatarrh OP 3.6 (L) Describe the aetiology, Pathophysiology, ocular features, differential diagnosis, complications and management of pterygium OP 3.7 (L) Describe the aetiology, Pathophysiology, ocular features, Differential diagnosis , Complication and management of symblepharon		(DOAP)EN.4.19.4- describe the clinical features, investigations and principles of management of meiner's disease	(DOAP)EN4.19.4- describe the clinical features, investigations and principles of management of meiner's disease

5	Tuesday, June 4, 2024	SU11.1 Enumerate the Indications and principles of day care General Surgery		CM 7.5 (L) Enumerate, define, describe, and discuss epidemiological study designs		FM 3.18 VIRGINITY, LEGITIMACY	FM 3.19 Pregnancy
6	Wednesday, June 5, 2024	OG8.5 DOAP Demonstrate the pelvic assessment in a model		EN.8.6- describe the principles of management of intracranial complications of csom		IM 6.14 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions.	IM 6.14 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions.
7	Thursday, June 6, 2024	PE23.1 Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA		17.2 DOAP Counsel in a simulated environment, care of the breast, importance and technique of breast feeding		CM 5.1 SGD Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions	
8	Friday, June 7, 2024	IM 6.1 Describe and discuss the symptoms and signs of acute HIV seroconversion.		FM 2.29-2.32 Doctor in court		OP 3.2 (DOAP) Demonstrate document and present the correct method of examination of a “red eye” including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	OP 3.3 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis
9	Saturday, June 8, 2024	S&ECA		CM (AETCOM) 3.5 B: Identify and discuss physician’s role and responsibility to society and the community that she/he serves.		SGD SU22.2 Describe the etiopathogenesis of thyroidal swellings SGD SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland.	

0	Sunday, June 9, 2024					
1	Monday, June 10, 2024	OG 9.1 Enumerate the causes of first trimester bleeding. Classify, define & discuss the etiology and management of abortion including threatened/incomplete/missed/septic/inevitable abortion		OP 4.1 (L) Enumerate, describe and discuss the types and causes of corneal ulceration OP 4.2 (L) Enumerate and discuss the differential diagnosis of infective Keratitis		(DOAP)EN.4.21.4- describe the clinical features, investigations and principles of management of acoustic neuroma DOAP)EN.4.21.4- (describe the clinical features, investigations and principles of management of acoustic neuroma
2	Tuesday, June 11, 2024	SU 17.7 Describe the clinical features of Soft tissue injuries. Chose appropriate investigations and discuss the principles of management.		Epidemiology of Respiratory infections CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 3.20-3.21 Disputed paternity FM 3.22 IMPOTENCY/STERILITY
3	Wednesday, June 12, 2024	OG13.1 SGD Discuss the physiology of normal labor		EN.4.10- describe the indications for and steps involved in myringotomy and myringoplasty		IM 20.10 SGD Enumerate the heat related illnesses. Discuss the clinical features and management of heat stroke. IM 20.10 SGD Enumerate the heat related illnesses. Discuss the clinical features and management of heat stroke.
4	Thursday, June 13, 2024	PE23.2 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot’s Physiology		34.4(a) SGD Perform the steps of surgical scrubbing.		CM 5.2SGD Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families, and the community by using the appropriate method.

5	Friday, June 14, 2024	IM 6.2 Define and classify HIV AIDS based on the CDC criteria.		FM 2.23-2.24 Mass disaster		OP 3.4 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma OP 3.5 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh
6	Saturday, June 15, 2024	S&ECA		FM (AETCOM) 2.19 Anaesthetic deaths		SDL SU 4.1 Pathophysiology of burns
7	Sunday, June 16, 2024					
8	Monday, June 17, 2024					
9	Tuesday, June 18, 2024	SU18.2 Classify skin tumours Differentiate different skin tumours and discuss their management SU21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands		Epidemiology of Respiratory infections CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 3.22-3.25 CONTRACEPTION FM 3.26-2.27 ART/MTP ACT

0	Wednesday, June 19, 2024	OG20.3 SGD Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNDT) Act 1994 & its amendments		EN.4.11- numerate the indications , describe the steps of mastoidectomy		IM 20.11 SGD Discuss the causes, clinical features, investigations and management of hypothermia. Discuss frostbite.	IM 20.11 SGD Discuss the causes, clinical features, investigations and management of hypothermia. Discuss frostbite.
1	Thursday, June 20, 2024	PE23.3 Discuss the etiopathogenesis, clinical presentation and management of cardiac failure in infant and children		34.4(b) SGD Discuss the technique and complications of endometrial aspiration, ECC and cervical biopsy		CM 5.4 SGD Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc. in a simulated environment	
2	Friday, June 21, 2024	IM 6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies.		FM 4.1-4.4 Medical Ethics		OP 3.6 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium	OP 3.7 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon
3	Saturday, June 22, 2024	S&ECA		CM (AETCOM) 3.5 B: Identify and discuss physician's role and responsibility to society and the community that she/he serves.		ORTHO SDL OR 2.6 Management of colle's fracture	
4	Sunday, June 23, 2024						
5	Monday, June 24, 2024	OG 9.3 Discuss the etiology, clinical features, differential diagnosis of acute abdomen in early pregnancy[with a focus on ectopic pregnancy] and		OP 4.3 (L) Enumerate the causes of corneal edema OP 4.4 (L) Enumerate the causes and discuss the management of dry eye OP 4.7 Enumerate		(DOAP)EN.4.21.5- describe the clinical features, investigations and principles of management of aural tumors	(DOAP)EN.4.21.5- describe the clinical features, investigations and

		enumerate the principles of medical and surgical management.		the indications and describe the methods of tarsorrhaphy			principles of management of aural tumors
6	Tuesday, June 25, 2024	2.14 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of ankle fractures		Epidemiology of Respiratory infections CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 3.24-3.25 CONTRACEPTION	FM 3.26-2.27 ART/MTP ACT
7	Wednesday, June 26, 2024	OG23.1 SGD Discuss the physiology of puberty, features of abnormal puberty, common problems and their management		EN4.13 - describe the clinical features, investigations and management of otosclerosis		S&ECA	S&ECA
8	Thursday, June 27, 2024	PE23.6 Discuss the etiopathogenesis, clinical features and management of Infective endocarditis in children		19.4, 35.15 DOAP Enumerate the indications for, describe the steps in the insertion and removal of an intrauterine device in a simulated environment.		CM 5.5 SGD Describe the methods of nutritional surveillance, principles of nutritional education and rehabilitation in the context of sociocultural factors	
9	Friday, June 28, 2024	S&ECA		FM 4.5-4.6 Rights and Duties of doctors		OP 3.8 (DOAP) Demonstrate correct technique of removal of foreign body from the eye in a simulated environment	OP 3.9 (DOAP) Demonstrate the correct technique of instillation of eye drops in a simulated environment
10	Saturday, June 29, 2024	S&ECA		OP (AETCOM)		Describe the clinical feature, investigation and management to benign and malignant condition of pancreas	

1	Sunday, June 30, 2024						
2	Monday, July 1, 2024	OG 9.4 Classify GTD ; Clinical features, laboratory investigations, USG, differential diagnosis, principles of management and follow-up of molar pregnancy		OP 4.3 (SGD) Enumerate the causes of corneal oedema OP 4.4 (SGD) Enumerate the causes and discuss the management of dry eye OP 4.5 (L) Enumerate the causes of corneal blindness OP 4.9 (L) Describe and discuss the importance and protocols involved in eye donation and eye banking		(DOAP)EN4.14.- describe the clinical features, investigations and management of conductive/sensorineural hearing loss	(DOAP)EN.4.14.- describe the clinical features, investigations and management of conductive/sensorineural hearing loss
3	Tuesday, July 2, 2024	SU 20.1 Describe etiopathogenesis of oral cancer symptoms and signs SU 22.1 Describe the applied anatomy and physiology of thyroid		Epidemiology of Respiratory infections CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 3.27-3.28 Abortion	FM 3.28 MTP act
4	Wednesday, July 3, 2024	OG27.1 SGD Discuss the etiology, pathology, clinical features, differential diagnosis & investigations of sexually transmitted infections		EN.4.18.1 --describe the anatomy of facial nerve and it's examination EN.4.18.3-describe the investigations relevant in the diagnosis of facial nerve palsy		IM 6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis	IM 6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis

5	Thursday, July 4, 2024	PE23.4 Discuss the etio - pathogenesis, clinical presentation and management of Acute Rheumatic Fever in children		34.2(a) SGD Discuss age wise differential diagnosis of an adnexal mass.		CM 5.7SGD Describe food hygiene	
6	Friday, July 5, 2024	IM 20.12 Discuss the adverse effects and management of radiation exposure.		FM 4.8-10 COPRA & Doctors & Media		OP 4.1 (SGD) Enumerate, describe and discuss the types and causes of corneal ulceration	OP 4.2 (SGD) Enumerate and discuss the differential diagnosis of infective Keratitis
7	Saturday, July 6, 2024	S&ECA		FM (AETCOM) 14.5 PM Demonstration		SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis	
8	Sunday, July 7, 2024						
9	Monday, July 8, 2024	OG 10.1(a) Define and enumerate the etiology of APH. Classify and describe the etiology , pathogenesis, clinical features ,USG features and management of placenta previa		OP 5.1 (L) Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis OP 5.2 (L) Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis		(DOAP)EN1.1.7- describe the anatomy of lateral wall of nose En.4.22- describe the clinical features, choose the correct investigations and describe the principles of management of nasal obstruction	(DOAP)EN4.23- describe the clinical features, investigations and principles of management of dns En.4.24- describe the steps in septoplasty
00	Tuesday, July 9, 2024	SU 27.4 Describe the types of gangrene and principles of amputation		EPIDEMIOLOGY OF RESPIRATORY INFECTION		FM 3.31 Torture	FM 3.32-3.33 Human rights

				CM 8.3 (L) Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case		
01	Wednesday, July 10, 2024	OG27.1 SGD Discuss the management and long term implications of sexually transmitted infections		EN.4.18.2- describe the causes / clinical features of facial nerve palsy EN.4.18.4-describe the various treatment modalities in a patient with facial nerve palsy		IM 3.15 SGD Describe and enumerate the indications for hospitalisation in patients with pneumonia. IM 3.15 SGD Describe and enumerate the indications for hospitalisation in patients with pneumonia.
02	Thursday, July 11, 2024	PE24.1 Discuss the etiopathogenesis, classification, clinical presentation and management of diarrheal diseases in children PE24.2 Discuss the classification and clinical presentation of various types of diarrheal dehydration PE24.3 Discuss the physiological basis of ORT, types of ORS and the composition of various types of ORS PE24.5 Discuss the role of antibiotics, antispasmodics, antisecretory drugs, probiotics, anti-emetics in acute diarrheal diseases		34.2(b) SGD Compare and contrast a benign and malignant ovarian mass		CM 5.8SGD Describe and discuss the importance and methods of food fortification and effects of additives and adulteration
03	Friday, July 12, 2024	IM 5.1 Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia		FM 4.11 Euthanasia		OP 4.3 (SGD) Enumerate the causes of corneal edema OP 4.4 (SGD) Enumerate the causes and discuss the management of dry eye
04	Saturday, July 13, 2024	S&ECA		OP (AETCOM)		SU 25.2 SGD Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast

05	Sunday, July 14, 2024					
06	Monday, July 15, 2024	OG 10.1(b) Classify and describe the etiology , pathogenesis, clinical features ,USG features and management of abruption		OP 6.1 (L) Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non - granulomatous inflammation OP 6.2 (L) Identify and Distinguish acute Iridocyclitis from chronic iridocyclitis		DOAP)EN.4.27- describe the clinical features, choose the correct investigations and describe the principles of management of allergic rhinitis (DOAP)EN.4.28- describe the clinical features, choose the correct investigations and describe the principles of management of vasomotor rhinitis(
07	Tuesday, July 16, 2024	SU 1.3 Discuss on basic concepts of perioperative care of surgical patients		EPIDEMIOLOGY OF SURFACE INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 4.16-4.18 Bioethics FM 4.16-1.18 Bioethics
08	Wednesday, July 17, 2024					
09	Thursday, July 18, 2024	PE24.6 Discuss the causes, clinical presentation and management of persistent diarrhoea in children PE24.7 Discuss the causes, clinical presentation and management of chronic diarrhoea in children PE24.8		34.2(b) SGD Compare and contrast a benign and malignant ovarian mass		CM 6.1SGD Formulate a research question for a study

		Discuss the causes, clinical presentation and management of dysentery in children					
10	Friday, July 19, 2024	IM 5.2 Describe and discuss the aetiology and pathophysiology of liver injury.		FM 4.12-4.15 Stem cell research etc		OP 4.5 (SGD) Enumerate the causes of corneal blindness	OP 4.6 (SGD) Enumerate the indications and the types of keratoplasty
11	Saturday, July 20, 2024	S&ECA		FM (AETCOM) 2.35 Professionalism in autopsy		SU 14.1 SDL Sterilization and disinfection	
12	Sunday, July 21, 2024						
13	Monday, July 22, 2024	OG 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.		OP 6.3 (L) Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestatio OP 6.4 (L) Describe and Distinguish hyphema and hypopyon		(DOAP)EN4.33- describe the clinical features, choose the correct investigations and principles of management of acute and chronic sinusitis	(DOAP)EN.4.33- describe the clinical features, choose the correct investigations and principles of management of acute and chronic sinusitis
14	Tuesday, July 23, 2024	2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.		EPIDEMIOLOGY OF SURFACE INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 4.19-4.20 Consent	FM 4.21-23 Declaration of Geneva

15	Wednesday, July 24, 2024	OG27.2 SGD Discuss the etiopathogenesis, clinical features, differential diagnosis, investigations, management of genital tuberculosis		EN.4.25-describe the clinical features, choose the correct investigations and describe the principles of management of deaf child	PANDEMIC MODULE: CM 3.1 Outbreak Management including Quarantine, Isolation, Contact tracing.	
16	Thursday, July 25, 2024	PE24.6 Discuss the causes, clinical presentation and management of persistent diarrhoea in children PE24.7 Discuss the causes, clinical presentation and management of chronic diarrhoea in children PE24.8 Discuss the causes, clinical presentation and management of dysentery in children		14.2 SGD Discuss mechanism of labor		CM 6.2SGD Describe and discuss the principles and demonstrate the Methods of collection, classification, analysis, interpretation and presentation of statistical data
17	Friday, July 26, 2024	S&ECA		FM 5.1 Forensic Psychiatry	OP 4.7 (SGD) Enumerate the indications and describe the methods of tarsorrhaphy	OP 4.8 (DOAP) Demonstrate technique of removal of foreign body in the cornea in a simulated environment
18	Saturday, July 27, 2024	S&ECA		OP (AETCOM)	2.8 Describe and discuss the aetiopathogenesismechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on immobilisation of patients	2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia awith special focus on neurovascular injury and compartment syndrome

19	Sunday, July 28, 2024					
20	Monday, July 29, 2024	OG12.1 Define , classify and describe the etiology , pathophysiology, early detection and investigations of HDP.		OP 6.5 (L) Describe and discuss the angle of the anterior chamber and its clinical correlates OP 6.6 (L) Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber	(DOAP)EN 4.31- describe the clinical features, investigations and principles of management of trauma to face and neck	DOAP)EN 4.31- describe the clinical features, investigations and principles of management of trauma to face and neck
21	Tuesday, July 30, 2024	SU 5.3 Classify different types of wound and their management		EPIDEMIOLOGY OF SURFACE INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases	FM 5.2 Tpes of psychiatric disorders	FM 5.3-5.6 MHA
22	Wednesday, July 31, 2024	OG31.1 SGD Discuss the etiology & classification of pelvic organ prolapse		EN. 4.14-describe the clinical features, investigations and management of snhl EN. 4.14.1- hearing aids and cochlear implants	IM 5.3 Describe and discuss the pathologic changes in various forms of liver disease.	IM 5.3 Describe and discuss the pathologic changes in various forms of liver disease.
23	Thursday, August 1, 2024	PE24.6 Discuss the causes, clinical presentation and management of persistent diarrhoea in children PE24.7 Discuss the causes, clinical presentation and management of chronic diarrhoea in children PE24.8		13.4(a) DOAP Demonstrate the various stages of labour in a simulated environment	CM 6.3SGD Describe, discuss, and demonstrate the application of Elementary statistical methods including test of significance in various study designs	

		Discuss the causes, clinical presentation and management of dysentery in children				
24	Friday, August 2, 2024					
25	Saturday, August 3, 2024	S&ECA		FM (AETCOM) 6.1 Forensic Serology	SU 28.2 SGD Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias	
26	Sunday, August 4, 2024					
27	Monday, August 5, 2024	OG12.1 Principles of management of HDP and eclampsia, complications of eclampsia		<p>EPIDEMIOLOGY OF SURFACE INFECTIONS</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>	<p>SDL</p> <p>CM1.9 Demonstrate the role of effective Communication skills in health in a simulated environment</p> <p>CM1.10 Demonstrate the important aspects of the doctor patient relationship in a simulated environment</p>	
28	Tuesday, August 6, 2024	SU 12.2 Methods of estimation and requirement of fluid, Electrolyte in a surgical patient		<p>EPIDEMIOLOGY OF SURFACE INFECTIONS</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary</p>	FM 6.2 Dispatch of reports	FM 6.3 Trace evidence & FSL

				care level for communicable diseases			
29	Wednesday, August 7, 2024	OG35.16 DOAP Demonstrate the emergency management of postpartum hemorrhage in a simulated / guided environment		General aspects of bone tumors, tumor like conditions, classifications of bone tumors		IM 6.10 SGD Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, Sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiograph.	IM 6.10 SGD Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, Sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiograph.
30	Thursday, August 8, 2024	PE28.1 Discuss the etiopathogenesis, clinical features and management of Nasopharyngitis PE28.2 Discuss the etiopathogenesis of Pharyngo Tonsillitis PE28.3 Discuss the clinical features and management of Pharyngo Tonsillitis PE28.7 Discuss the etiology, clinical features and management of Stridor in children		13.4(b) DOAP Demonstrate the management of labour in a simulated environment		CM 6.3SGD Describe, discuss, and demonstrate the application of Elementary statistical methods including test of significance in various study designs	
31	Friday, August 9, 2024	IM 5.4 Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis		FM 7.1 Virtual autopsy and AI		SGD PE1.7 Perform Developmental assessment and interpret	
32	Saturday, August 10, 2024	S&ECA		OP (AETCOM)		SGD SU 3.3 Counsel patients and family/ friends for blood transfusion and blood donation	

33	Sunday, August 11, 2024					
34	Monday, August 12, 2024	OG 12.7 Describe and discuss screening , risk factors, management of mother and newborn with HIV		<p>EPIDEMIOLOGY OF SURFACE INFECTIONS</p> <p>CM 8.3 (L) Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case</p>	<p>SDL</p> <p>CM2.2 Describe the socio-cultural factors, family (types), its role in healthand disease & demonstrate in a simulated environment the correctassessment of socio-economic status</p> <p>CM2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior</p>	
35	Tuesday, August 13, 2024	SU 16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery		<p>EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>	FM 8.1-8.2 Toxicology History	FM 8.3 Types of poison
36	Wednesday, August 14, 2024	OG 8.7 SDL Enumerate the indications for and types of vaccination in pregnancy.		Classification and management of open fractures	IM 5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy.	IM 5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal

						syndrome and hepatic encephalopathy.
37	Thursday, August 15, 2024					
38	Friday, August 16, 2024	IM 5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease.		FM 8.4 NDPS act	SGD PE2.1 Discuss the etiopathogenesis, clinical features and management of a child who fails to thrive	SDL PE5.2 Describe the clinical features, diagnosis and management of Feeding problems
39	Saturday, August 17, 2024	S&ECA		FM (AETCOM) 14.5 PM Demonstation	SU3.2 SGD OBSERVE BLOOD TRANSFUSION	
40	Sunday, August 18, 2024					
41	Monday, August 19, 2024					
42	Tuesday, August 20, 2024	SU 20.1 Describe etiopathogenesis of oral cancer symptoms and signs		EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary	FM 8.5 -8.6 Gen methods of diagnosis of poisoning	FM 8.7 Bedside methods of detection of poison

				care level for communicable diseases		
43	Wednesday, August 21, 2024	OG 3.1 SDL Describe the physiology of menstruation		Compartment syndrome and sequele		IM 6.11 SGD Enumerate the indications and describe the findings for CT of the chest and brain and MRI. IM 6.12 SGD Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph.
44	Thursday, August 22, 2024	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema PE28.19 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children		13.4(b) DOAP Demonstrate the management of labour in a simulated environment		CM6.4 SDG Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion
45	Friday, August 23, 2024	S&ECA		FM 8.9-8.10 Viscera preservation		SGD PE7.9 Educate and counsel mothers for best practices in Breast feeding SGD PE8.2 Discuss the initiation, attributes, frequency, techniques and hygiene related to Complementary Feeding
46	Saturday, August 24, 2024	S&ECA		OP (AETCOM)		ORTHO SDL 4 OR 2.4.2 Pediatric supracondylar fracture with/without vascular injury

47	Sunday, August 25, 2024					
48	Monday, August 26, 2024					
49	Tuesday, August 27, 2024	OR2.7 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigation and principles of management of pelvic injuries with emphasis on hemodynamic instability Management		<p>EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>	FM 9.1 Antidotes	FM 9.1 Corrosive poisons
50	Wednesday, August 28, 2024	OG 3.1 SDL Describe the physiology of ovulation, fertilization, implantation and gametogenesis.		Fracture SOF complications - fat embolism Integration with ANAESTHESIA (ARDS)	<p>PANDEMIC MODULE:</p> <p>CM 3.2 Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health.</p>	
51	Thursday, August 29, 2024	<p>PE29.2 Discuss the etiopathogenesis, clinical features and management of Iron Deficiency anaemia</p> <p>PE29.3 Discuss the etiopathogenesis, clinical features and management of VIT B12, Folate deficiency anaemia</p>		13.1 SGD Principles of induction and acceleration of labor.	CM6.4 SDG	Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion

52	Friday, August 30, 2024	IM 6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC.		FM 9.2-9.3 Metal poison Lead		SGD PE2.4 Discuss the etiopathogenesis, clinical features and management of a child with short stature	SDL PE6.7 Describe the common mental health problems during adolescence
53	Saturday, August 31, 2024	S&ECA		EN (AETCOM)		SU 9.3 SGD Communicate the results of surgical investigations and counsel the patient appropriately	
54	Sunday, September 1, 2024						
55	Monday, September 2, 2024	OG 13.1 Discuss the physiology of normal labor, monitoring and conduct of labor.		EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		SDL CM3.3 Describe the aetiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases	
56	Tuesday, September 3, 2024	SU 13.1 Describe the immunological basis of organ transplantation		EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS CM 8.1 (L) Describe and discuss the epidemiological and control measures		FM 9.2- 9.3 Arsenic, Mercury	FM 9.2-9.3 Copper, Iron etc

				including the use of essential laboratory tests at the primary care level for communicable diseases			
57	Wednesday, September 4, 2024	OG 33.4 SDL Describe the HPV vaccines		CTEV etiopathogenesis, CF and management		IM 6.22SGD Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV.	IM 6.22SGD Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV.
58	Thursday, September 5, 2024	PE29.4 Discuss the etiopathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Autoimmune hemolytic anaemia and hemolytic uremic syndrome		33.4 DOAP Demonstrate the screening of cervical cancer in a simulated environment (pap smear, VILI, VIA)		CM6.4 SDG Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion	
59	Friday, September 6, 2024	IM 5.16 Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy.		FM 9.4 Ethanol Poisoning		SGD PE11.1 Describe the common etiology, clinical features and management of obesity in children	SGD PE11.1 Describe the common etiology, clinical features and management of obesity in children
60	Saturday, September 7, 2024	S&ECA		FM (AETCOM) 14.20 MCCD		SU10.3 SGD Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures	
61	Sunday, September 8, 2024						

62	Monday, September 9, 2024	OG 26.2 Describe the causes ,prevention ,clinical features, principles of management of genital injuries(excluding fistulas)		<p>EPIDEMIOLOGY OF GASTROINTESTINAL INFECTIONS</p> <p>CM 8.3 (L) Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case</p>		<p>SDL</p> <p>CM3.2 Describe concepts of safe and wholesome water, sanitary sourcesof water, water purification processes, water quality standards,concepts of water conservation and rainwater harvesting</p>
63	Tuesday, September 10, 2024	SU 15.1 Describe classification of hospital waste and appropriate methods of disposal		<p>EPIDEMIOLOGY OF VECTOR BORNE DISEASES</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>		<p>FM 9.4-Methanol Poisoning</p> <p>FM 9.4 Examination of alcohol</p>
64	Wednesday, September 11, 2024	OG13.1 SDL Discuss and describe the partogram		<p>Polyarthritis, RA, AS and other Seronegative arthritis</p>		<p>IM 6.23 SGD Demonstrate a non-judgemental attitude</p> <p>to patients with HIV and to their lifestyles</p> <p>IM 6.23 SGD Demonstrate a non-judgemental attitude</p> <p>to patients with HIV and to their lifestyles</p>
65	Thursday, September 12, 2024	<p>PE29.6 Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP)</p> <p>PE29.7 Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children.</p>		<p>33.4 DOAP Demonstrate the screening of cervical cancer in a simulated environment (pap smear, VILI,VIA)</p>		<p>SGD</p> <p>CM12.2 Describe health problems of aged population</p> <p>CM12.3 Describe the prevention of health problems of aged population</p>

66	Friday, September 13, 2024	IM 5.8 Describe and discuss the pathophysiology, clinical evolution and complications cholelithiasis and cholecystitis.		FM 9.5 Organophosphates		SGD PE23.12 Interpret a chest X ray and recognize Cardiomegaly	SDL PE23.17 Enumerate some common cardiac surgeries like BT shunt, Potts and Waterston's and corrective surgeries
67	Saturday, September 14, 2024	S&ECA		EN (AETCOM)		SU 14.2 SGD Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general	
68	Sunday, September 15, 2024						
69	Monday, September 16, 2024						
70	Tuesday, September 17, 2024	SU 17.3 Describe the Principles in management of mass Casualties		EPIDEMIOLOGY OF VECTOR BORNE DISEASES CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 9.5 Organophosphate/carbamates	FM 9.6 cYANIDE

71	Wednesday, September 18, 2024	OG13.1 Seminar Discuss the role of labor analgesia (Seminar)		Management of colles fracture		IM 5.13 SGD Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver.	IM 5.13 SGD Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver.
72	Thursday, September 19, 2024	PE29.8 Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children		9.2(a) DOAP Describe the steps of an MTP (Inregation with forensic medicine-H)		SGD CM12.1 Define and describe the concept of Geriatric services CM12.4 Describe National program for elderly	
73	Friday, September 20, 2024	IM 5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury.		FM 9.2 Phosphorus		SGD PE23.13 Choose and Interpret blood reports in Cardiac illness	SGD PE23.14 Interpret Paediatric ECG
74	Saturday, September 21, 2024	S&ECA		FM (AETCOM) 14.5 PM Demonstration		SU27.8 Demonstrate the correct examination of the lymphatic system	
75	Sunday, September 22, 2024						
76	Monday, September 23, 2024	OG 16.1 Enumerate and discuss causes, prevention, diagnosis, management and appropriate use of blood or blood products in PPH		EPIDEMIOLOGY OF VECTOR BORNE DISEASES CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential		SDL CM 3.2 Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting	

				laboratory tests at the primary care level for communicable diseases		
77	Tuesday, September 24, 2024	OR1.4.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principals of management of dislocation of major joints, shoulder dislocation.		<p>EPIDEMIOLOGY OF VECTOR BORNE DISEASES</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>		<p>FM 10.1 Antipyretic poisoning</p> <p>FM 10.1 Barbiturates</p>
78	Wednesday, September 25, 2024	S&ECA		Describe and Discuss the mechanism of injury, clinical features, investigations, and plan management of fracture of proximal humerus		<p>PANDEMIC MODULE:</p> <p>CM 3.2 Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health.</p>
79	Thursday, September 26, 2024	<p>PE34.1 Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents</p> <p>PE34.2 Discuss the various diagnostic tools for childhood tuberculosis</p> <p>PE34.3 Discuss the various regimens for management of Tuberculosis as per National Guidelines</p>		9.2(b) DOAP Observe or assist in the performance of an MTP (Integration with forensic medicine-H)		<p>SGD</p> <p>CM13.2 Describe disaster management cycle</p> <p>CM13.3 Describe man-made disasters in the world and in India</p>
80	Friday, September 27, 2024	S&ECA		FM 10.1 Cardiac toxins		

					SGD PE24.4 Discuss the types of fluid used in Paediatric diarrheal diseases and their composition	SGD PE24.14 Plan fluid management as per the WHO criteria
81	Saturday, September 28, 2024	S&ECA		EN (AETCOM)	ORTHO SDL3 OR 1.1 Approach to management of a polytrauma patient	
82	Sunday, September 29, 2024					
83	Monday, September 30, 2024	OG 19.1(a) Describe and discuss the physiology of puerperium, its complications		<p>EPIDEMIOLOGY OF VECTOR BORNE DISEASES</p> <p>CM 8.1 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases</p>	<p>SDL</p> <p>CM5.2 Describe and demonstrate the correct method of performing anutritional assessment of individuals, families and the community byusing the appropriate method</p>	
84	Tuesday, October 1, 2024	SU 11.1 Enumerate the indications and principles of day care General Surgery		<p>EPIDEMIOLOGY OF VECTOR BORNE DISEASES</p> <p>CM 8.3 (L) Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case</p>	FM 10.1 Plant poisons	FM 10.1 Plant poisons
85	Wednesday, October 2, 2024					

86	Thursday, October 3, 2024	PE34.15 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with exanthematous illnesses like Measles, Mumps, Rubella & Chicken pox PE34.16 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Diphtheria, Pertussis, Tetanus.		19.2(a) DOAP Counsel in a simulated environment,for temporary methods of contraception (Inregrationwith community medicine-H)		SGD CM15.1 Define and describe the concept of mental Health CM15.2 Describe warning signals of mental health disorder
87	Friday, October 4, 2024	IM 5.13 Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver.		FM 11.1 Snake bite		SGD PE26.9 Interpret Liver Function Tests, viral markers, ultrasound report
88	Saturday, October 5, 2024	S&ECA		FM (AETCOM) 14.5 PM Demonstration		AN15.3 Describe and demonstrate boundaries, floor, roof and contents of femoral triangle
89	Sunday, October 6, 2024					
90	Monday, October 7, 2024	OG 19.1(b) Puerperal complication - diagnosis and management. Counselling for contraception, puerperal sterilization		EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases		SDL CM5.4 Plan and recommend a suitable diet for the individuals and familiesbased on local availability of foods and economic status, etc in a simulated environment

				(diabetes, Hypertension, Stroke, obesity and cancer etc.)		
91	Tuesday, October 8, 2024	SU 19.1 Describe the aetiology and classification of cleft lip and palate		<p>EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES</p> <p>CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)</p>		<p>FM 11.1 Snake and scorpion bites etc</p> <p>FM 11.1 Snake and scorpion bites etc</p>
92	Wednesday, October 9, 2024	S&ECA		Approach to management of polytrauma patient		<p>IM 5.14 SGD Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology.</p> <p>IM 5.14 SGD Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology.</p>
93	Thursday, October 10, 2024	PE34.17 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Typhoid		19.2(a) DOAP Counsel in a simulated environment, for temporary methods of contraception (Inregration with community medicine-H)		<p>SGD</p> <p>CM15.3 Describe National Mental Health program</p>
94	Friday, October 11, 2024	IM 5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology.		FM 12.1 Tobacco/Nicotine		

						SGD PE26.12 Discuss the prevention of Hep B infection – Universal precautions and Immunisation
95	Saturday, October 12, 2024					
96	Sunday, October 13, 2024					
97	Monday, October 14, 2024	OG 24.1 Define, classify and discuss abnormal uterine bleeding in terms of PALM-COEIN.		EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)		SDL CM7.6 Enumerate and evaluate the need of screening tests
98	Tuesday, October 15, 2024	SU 13.3 Discuss the legal and ethical issues concerning organ donation		EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential		FM 12.1 Drug Dependence/Abuse FM 12.1 Drug Dependence

				laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)			
99	Wednesday, October 16, 2024	S&ECA		Difference between pediatric and Adult Fractures		IM 1.21SGD Describe and discuss and identify the clinical features of acute and subacute endocarditis, echocardiographic findings, blood culture and sensitivity and therapy.	IM 1.21SGD Describe and discuss and identify the clinical features of acute and subacute endocarditis, echocardiographic findings, blood culture and sensitivity and therapy.
00	Thursday, October 17, 2024	<p>PE34.18 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Dengue, Chikungunya and other vector borne diseases</p> <p>PE34.19 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of children with Common Parasitic infections, malaria, leishmaniasis, filariasis, helminthic infestations, amebiasis, giardiasis</p> <p>PE34.20 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Rickettsial diseases</p>		19.2(b) DOAP Counsel in a simulated environment, for permanent methods of contraception. (Inregration with community medicine-H)		SGD CM17.2 Describe community diagnosis	

01	Friday, October 18, 2024	IM 5.13 Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver.		FM 12.1 Designer drugs		SGD PE28.11 Perform throat examination PE28.12 Perform examination of the nose	SGD PE28.8 Discuss the types, clinical presentation, and management of foreign body aspiration in infants and children
02	Saturday, October 19, 2024	S&ECA		FM (AETCOM) 14.20 Recording dying declaration		SU 4.1 SGD Describe Pathophysiology of Burns	
03	Sunday, October 20, 2024						
04	Monday, October 21, 2024	OG 29.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, of fibroid uterus.		EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)		SDL CM7.9 Describe and demonstrate the application of computers in epidemiology	
05	Tuesday, October 22, 2024	OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigation,		EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES		FM 13.1 Toxic occupational hazards	FM 13.1 Workman compensation act

		and principles of management of fractures of distal radius		CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)			
06	Wednesday, October 23, 2024	S&ECA		Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartment syndrome		PANDEMIC MODULE: CM 3.2 Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health.	
07	Thursday, October 24, 2024	S&ECA		14.4(a) SGD Discuss abnormal labor.		SGD CM17.5 Describe health care delivery in India	
08	Friday, October 25, 2024	S&ECA		FM 14.1 Wound report		SGD PE28.16 Interpret blood tests relevant to upper respiratory problem	SGD PE28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment Sports/Extra Curricular Activities
09	Saturday, October 26, 2024	S&ECA		EN (AETCOM)		ORTHO SDL2 OR 2.11 Sequelae of Compartment Syndrome and its management (VIC).	

10	Sunday, October 27, 2024					
11	Monday, October 28, 2024	OG 25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigations and principles of management.		<p>EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES</p> <p>CM 8.2 (L) Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)</p>		<p>SDL</p> <p>CM8.6 Educate and train health workers in disease surveillance, control & treatment and health education</p>
12	Tuesday, October 29, 2024	SU 17.7 Describe the clinical features of soft tissue Injuries. Chose appropriate investigations and discuss the principles of management		<p>EPIDEMIOLOGY OF NON-COMMUNICABLE DISEASES</p> <p>CM 8.3 (L) Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case</p>		<p>FM 14.2 PM report</p> <p>FM 14.2 PM report</p>
13	Wednesday, October 30, 2024					

14	Thursday, October 31, 2024					
15	Friday, November 1, 2024	IM 5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology.		FM 14.4-14.8 Examination of stains	SGD PE29.5 Discuss the National Anaemia Control Program	SDL PE6.10 Discuss the objectives and functions of AFHS (Adolescent Friendly Health Services) and the referral criteria
16	Saturday, November 2, 2024					
17	Sunday, November 3, 2024					
18	Monday, November 4, 2024	OG 33.1 Classify, describe and discuss the etiology, pathology, clinical features, and differential diagnosis of benign and premalignant cervical lesion[CIN].		HEALTH PLANNING AND MANAGEMENT CM 16.1 (L) Define and describe the concept of Health planning	SGD CM17.5 Describe health care delivery in India	
19	Tuesday, November 5, 2024	SU 18.2 Classify skin tumours Differentiate different skin tumours and discuss their management		HEALTH PLANNING AND MANAGEMENT CM 16.2 (L) Describe planning cycle CM 16.3 (L) Describe Health management techniques	FM 14.9 Examination of skeletal remains	FM 14.10 Skeletal remains

20	Wednesday, November 6, 2024	S&ECA		Describe and discuss the aetiopathogenesis, clinical features, investigations, and principales of managment of dislocation of major joints, shoilderdisloaction.		IM 1.23 SGD, Describe, prescribe and communicate nonpharmacologic management of heart failure including sodium restriction, physical activity and limitations.	SGD 1.26 Develop document and present a management plan for patients with heart failure based on type of failure underlying aetiology.
21	Thursday, November 7, 2024	S&ECA		13.5 DOAP Observe and assist in the conduct of normal vaginal delivery.		SGD	CM18.1 Define and describe the concept of International health CM 18.2 Describe roles of various international health agencies
22	Friday, November 8, 2024	IM 1.6 Describe, discuss the Compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations.		FM 14.16 Alcohol examination		SGD PE29.14 Interpret CBC, LFT	SGD PE29.15 Perform and interpret peripheral smear
23	Saturday, November 9, 2024	S&ECA		EN (AETCOM)		SU 12.1 SGD Enumerate the causes and consequences of malnutrition in the surgical patient	
24	Sunday, November 10, 2024						
25	Monday, November 11, 2024	OG 33.4 Screening for ca cervix; Enumerate the methods to prevent cancer cervix including VIA, VILI, pap smear and colposcopy; vaccination		HEALTH PLANNING AND MANAGEMENT CM 16.4 (L) Describe health planning in India and National policies related to health and health planning		SGD CM19.1 Define and describe the concept of Essential Medicine List (EML) CM19.2 Describe roles of essential medicine in primary health care	

					CM19.3 Describe counterfeit medicine and its prevention
26	Tuesday, November 12, 2024	SU 21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands		HEALTH PLANNING AND MANAGEMENT CM 8.7 (L) Describe the principles of management of information systems	FM 14.17 Examination of foetus for age determination
27	Wednesday, November 13, 2024	S&ECA		Sequelae of Compartment Syndrome and its management (VIC)	IM 13.8 SDL Describe and discuss the genetic background and the influence of environment on diabetes. IM 1.28 SDG Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and acyanotic heart disease.
28	Thursday, November 14, 2024	S&ECA		14.4(b) SGD Abnormal labor- Discuss cord prolapse ,its cause ,clinical features, and management.	SGD CM8.7 Describe the principles of management of information systems
29	Friday, November 15, 2024				
30	Saturday, November 16, 2024	S&ECA		FM (AETCOM) 14.17 Examination of common poisoning by plants	SU13.3 SGD Discuss the legal and ethical issues concerning organ donation SGD SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis

31	Sunday, November 17, 2024					
32	Monday, November 18, 2024	OG22.1 Physiology of Normal vaginal discharge, abnormal discharge and syndromic management		HEALTHCARE OF COMMUNITY CM 17.1 (L) Define and describe the concept of health care to community	SGD CM 20.3 Describe any event important to Health of the Community	
33	Tuesday, November 19, 2024	SU 22.1 Describe the applied anatomy and physiology of thyroid		HEALTHCARE OF COMMUNITY CM 17.3 (L) Describe primary health care, its components and principles	FM 14.17 Examination of poisoning by plants	FM 14.17 Examination of poisoning by plants
34	Wednesday, November 20, 2024	S&ECA		Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigation and principles of management of fractures of distal radius.	IM 1.27 SGD Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease.	IM 1.4 SGD Stage heart failure
35	Thursday, November 21, 2024	S&ECA		37.1(a) SGD Caesarean section- Indications & identification of instruments	SGD CM4.1 Describe various methods of health education with their advantages and limitations	
36	Friday, November 22, 2024	S&ECA		FM 14.18 Report of examination of accused brought by police	SGD PE29.16 Discuss the indications for Hemoglobin electrophoresis and interpret report	PE29.20 Enumerate the indications for splenectomy and precautions

37	Saturday, November 23, 2024	S&ECA		FM (AETCOM) 14.4 Stain examination	OR2.5 Describe and discuss the aetiology, pathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury
38	Sunday, November 24, 2024				
39	Monday, November 25, 2024	OG13.2 Discuss the Pathophysiology diagnosis, investigation and management of preterm labor & PROM		HEALTHCARE OF COMMUNITY CM 17.4 (L) Describe National policies related to health and health planning and millennium development goals	SGD CM8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)
40	Tuesday, November 26, 2024	OR2.16 Describe and discuss the mechanism of injury, clinical features, investigation and principles of management of open fractures, with focus on secondary infection and management.		HEALTHCARE OF COMMUNITY CM 17.4 (L) Describe National policies related to health and health planning and millennium development goals	FM 14.19 Medicolegal inference of histopathological reports FM 4.19 Medicolegal inference of histopathological reports
41	Wednesday, November 27, 2024	S&ECA		Describe and discuss the Principles of pre-hospital care and Causality management of a trauma victim including principles of triage	PANDEMIC MODULE: CM 3.3 Operational Research, Field work, Surveillance
42	Thursday, November 28, 2024	S&ECA		37.1(b) SGD Observe in the performance of caesarean section	SGD CM10.2 Enumerate and describe the methods of screening high risk groups and common health problems

43	Friday, November 29, 2024	IM 1.4 Stage heart failure.		FM 14.18 Examination of a person in custody		SGD PE29.16 Discuss the indications for Hemoglobin electrophoresis and interpret report PE29.20 Enumerate the indications for splenectomy and precautions	SGD PE19.7 Educate and counsel a patient for immunization
44	Saturday, November 30, 2024	S&ECA		Classify different types of wound and their management		SDL SU 1.3 Pathophysiology of shock SGD SU 22.6 Describe and discuss the clinical features of hypo and hyperparathyroidism and the principles of their management	
45	Sunday, December 1, 2024						
46	Monday, December 2, 2024	OG13.2 Discuss the Pathophysiology diagnosis, investigation and management of preterm labor & PROM		HEALTHCARE OF COMMUNITY CM 17.5 (L) Describe health care delivery in India		SGD CM10.5 Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs.	
47	Tuesday, December 3, 2024	SU		DISASTER MANAGEMENT CM 13.1 (L) Define and describe the concept of Disaster management CM 13.2 (L) Describe disaster management cycle		FM 14.19 Medicolegal inference of histopathological reports	FM 4.19 Medicolegal inference of histopathological reports

48	Wednesday, December 4, 2024	S&ECA		Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of knee, hip		IM 14.15SGD Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle.	IM 14.15SGD Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle.
49	Thursday, December 5, 2024	S&ECA		10.2(a) SGD Enumerate the indications and describe the appropriate use of blood and various blood Products. (Integration with pathology-transfusion medicine)		Discussion of Hernia and its classification and management	
50	Friday, December 6, 2024	IM 14.8 Describe and discuss the genetic basis of some forms of heart failure.		FM 14.21 Fingerprint preservation etc		SGD PE34.10 Discuss the various samples for demonstrating the organism e.g. Gastric Aspirate, Sputum, CSF, FNAC	SDL PE34.13 Enumerate the newer diagnostic tools for Tuberculosis including BACTEC CBNAAT and their indications
51	Saturday, December 7, 2024	S&ECA		FM (AETCOM) 14.5 PM examination		SGD SU22.2 Describe the etiopathogenesis of thyroidal swellings	
52	Sunday, December 8, 2024						
53	Monday, December 9, 2024	OG 2.1(a) SDL Describe and discuss the development and anatomy of the female reproductive	DISASTER MANAGEMENT	PANDEMIC MODULE: CM 3.3 Operational Research, Field work, Surveillance			

		tract,relationship to other pelvic organs , applied anatomy		CM 13.3 (L) Describe man-made disasters in the world and in India CM 13.4 (L) Describe the details of the National Disaster management Authority		
54	Tuesday, December 10, 2024	SU		NUTRITION CM 5.6 (L) Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc		FM 14.20 MCCD FM 14.20 MCCDF
55	Wednesday, December 11, 2024	S&ECA		Describe and discuss the Principles of Management of soft tissue injuries		IM 20.7 SGD Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti-snake venom IM 20.7 SGD Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti-snake venom
56	Thursday, December 12, 2024	S&ECA		10.2(b) SGD Complications of blood and various blood products transfusion & their management. (Inregration with pathology-transfusion medicine)		BPH and its management
57	Friday, December 13, 2024	IM 1.27 Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease.		FM 14.20 MCCD		SGD PE19.14 Practice Infection control measures and appropriate handling of the sharps

58	Saturday, December 14, 2024	IM Revision class		Indication for pigtail insertion		SDL SU4.1 Pathophysiology of burns
59	Sunday, December 15, 2024					
60	Monday, December 16, 2024	OG 2.1(b) SDL Describe and discuss the anatomy of the female reproductive tract, relationship to other pelvic organs, applied anatomy		ENVIRONMENTAL HEALTH PROBLEM CM 3.7 (L) Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures		PANDEMIC MODULE: CM 3.3 Operational Research, Field work, Surveillance
61	Tuesday, December 17, 2024	SU		RECENT ADVANCES IN COMMUNITY MEDICINE CM 20.1 (L) List important public health events of last five years		FM 14.22 Evidence in court of law
62	Wednesday, December 18, 2024	S&ECA		Sequelae of Compartment Syndrome and its management (VIC).		IM 6.3SGD Describe and discuss the relationship between CDC count and the risk of opportunistic infections.
63	Thursday, December 19, 2024	S&ECA		40.1(a) SGD Etiology, diagnosis and management of fever in pregnancy. (Inregration with general medicine)		Various types of skin malignancy and their management

64	Friday, December 20, 2024	S&ECA		FM 14.11 Weapon examination		SGD PE19.16 Enumerate available newer vaccines and their indications including pentavalent pneumococcal, rotavirus, JE, typhoid IPV & HPV
65	Saturday, December 21, 2024	IM Revision class		Day care surgery		BURNS
66	Sunday, December 22, 2024					
67	Monday, December 23, 2024	OG 7.1 SDL Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, hematology, renal and gastrointestinal system in pregnancy.		Indications for intercostal drainage		PANDEMIC MODULE: CM 3.3 Operational Research, Field work, Surveillance
68	Tuesday, December 24, 2024	OR 2.2 Describe and discuss the mechanism of injury, clinical features, investigations and plan management of fracture of proximal humerus.		RECENT ADVANCES IN COMMUNITY MEDICINE CM 20.2 (L) Describe various issues during outbreaks and their prevention	FM 14.12 Examination of cartridges	FM 14.12 Examination of cartridges
69	Wednesday, December 25, 2024					
70	Thursday, December 26, 2024	S&ECA		40.1(b) SGD Impact of fever on pregnancy outcome. (Integration with general medicine)		BURNS and their management

71	Friday, December 27, 2024	IM 1.2 Describe and discuss the genetic basis of some forms of heart failure		FM 14.7 Blood groups		SGD PE12.7 Describe the causes, clinical features, diagnosis and management of Deficiency / excess SGD	SGD PE12.13 Discuss the RDA, dietary sources of Vitamin K and their role in health and disease of Vitamin D (Rickets and Hypervitaminosis D)
72	Saturday, December 28, 2024	IM Revision class		Diabetic foot		1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints shoulder, knee and hip.	
73	Sunday, December 29, 2024						
74	Monday, December 30, 2024	OG 2.1 SDL Mullerian anomalies and their clinical significance.		Abdominal trauma and its management		Peripheral vascular disease	
75	Tuesday, December 31, 2024	SU		RECENT ADVANCES IN COMMUNITY MEDICINE CM 20.4 (L) Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act and Human Organ Transplantation Act and its implications		FM 14.5 PM examination	FM 14.5 PM examination
76	January 1- 15, 2025	TERMINAL EXAMINATION					
77		ELECTIVE POSTINGS
