

LLRM MEDICAL COLLEGE, MEERUT

2025 Schedule Year Planner for MBBS Batch 2022(3rd Prof. Part 1)

	Colour shade	Used for		Abbreviation	
1.		Serial number	1.	L	Lecture
2.		Date & Day of Year & Sundays	2.	DOAP	Demonstrate (by Student) Observe, Assist Perform
3.		Government holidays	3.	SGD	Small Group Discussion
4.		Lunch	4.	ID	Interactive discussion
5.		S&ECA	5.	SDL	Self-directed Learning
6.		AETCOM Module	6.	IA	Internal Assessment
7.		Forensic medicine	7.	IM	General Medicine
8.		Community Medicine	8.	SU	General Surgery
9.		General Medicine	9.	OG	Obstetrics & Gynaecology
10.		Obstetrics & Gynaecology	10.	PE	Paediatrics
11.		ENT	20	S&ECA	Sports & Extra-curricular Activities
12.		Ophthalmology	21	AETCOM	Attitude, Ethics and Communication Module
13.		Paediatrics	23	OP	Ophthalmology
14.		Surgery			
15.		Orthopaedics			
16.		Terminals			
17.		Psychiatry			
18.		Pandemic Module			

S No	DAY, DATE & YEAR	8-9 A.M	9-12 A.M	12-01 P.M	1-2 PM LUNCH	2-3PM	3-4 PM
1.	Thursday 16 January 2025	PE33.1 Hypothyroidism in children		20.2(a) DOAP In a simulated environment, how to counsel a client for MTP (Inregration with forensic medicine)		CM 7.8 Describe the principles of association, causation and biases in epidemiological studies	
2.	Friday 17 January 2025	IM 14.14 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity. Describe and enumerate the indications and side effects of bariatric surgery.		FM 2.20 Mechanical Asphyxia		<p>OP 1.1 (SGD) Describe the physiology of vision</p> <p>OP 1.2 (SGD) Define, classify and describe the types and methods of Correcting refractive errors</p> <p>(SGD) Enumerate the indications and describe the principles of refractive surgeries.</p> <p>OP 1.3 (DOAP) Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes</p>	
3.	Saturday 18 January 2025	PS 3.1 Introduction to Psychiatry (Describe the growth of psychiatry as a medical specialty, its history and contribution to society)		CM 3.5A Identify, discuss and defend medico-legal, socio-cultural, professional and ethical issues as it pertains to the physician – patient relationship (including fiduciary duty)		SU 22.1 Describe the applied anatomy and physiology of thyroid	
4.	Sunday 19 January 2025						

5.	Monday 20 January 2025	OG 1.1 Define and discuss birth rate, maternal mortality and morbidity [integration with community medicine]	OP 1.1 (L) Describe the physiology of vision OP 1.2 (L) Define, classify and describe the types and methods of correcting refractive errors OP 1.4 (L) Enumerate the indications and describe the principles of refractive surgery OP 1.5 (L) Define, enumerate the types and the mechanism by which strabismus leads to amblyopia	(DOAP)EN.2.4- correct technique of performance and interpret tuning fork test (DOAP)EN.2.8-correct technique to perform and interpret pure tone audiogram and impedance audiogram
6.	Tuesday 21 January 2025	SU 5.3 Classify different types of wound and their management	CM 7.1 Define Epidemiology and describe and enumerate the principles, concepts and uses	FM 3.3 Mechanical Injury Injury FM 3.4 Injury types
7.	Wednesday 22 January 2025	OG6.1 SGD Describe & discuss the clinical features of pregnancy	EN 1.1- describe the salient features of embryological development of ear	IM 21.2 Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and specific approach to detoxification.
8.	Thursday 23 January 2025	PE33.4 Diabetes mellitus in children	15.1 SGD Enumerate and describe the indications, steps, technique and complications of episiotomy.	CM 7.6 Enumerate and evaluate the need of screening tests

9.	<p>Friday 24 January 2025</p>	<p>IM 20.1 Enumerate the local poisonous snakes and describe the distinguishing marks of each.</p>	<p>FM 2.21-2.22 Hanging/strangulation</p>	<p>OP 1.5 (SGD) Define, enumerate the types and the mechanism by which strabismus leads to amblyopia,</p> <p>OP 2.1 (SGD) Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lagophthalmos</p> <p>OP 2.2 (DOAP) Demonstrate the symptoms & clinical signs of conditions enumerated in</p> <p>OP2.1 OP 2.3 (DOAP) Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. Massage technique in cong. dacryocystitis, and trichiatic cilia removal by epilation</p>
10.	<p>Saturday 25 January 2025</p>	<p>PS 3.2 Introduction to Psychiatry (Enumerate, describe and discuss important signs & symptoms of common mental disorders)</p>	<p>CM 3.5A Identify, discuss and defend medico-legal, socio-cultural, professional and ethical issues as it pertains to the physician – patient relationship (including fiduciary duty)</p>	<p>Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartment syndrome</p>

11.	Sunday 26 January 2025					
12.	Monday 27 January 2025	OG 1.2,18.3 Define and discuss perinatal mortality and morbidity [including audit]. Describe and discuss the diagnosis of birth asphyxia		OP 2.1 (L) Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal , cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos OP 2.4 (L) Describe the aetiology, clinical presentation and Discuss the complications and management of orbital cellulitis OP 2.5 (L) Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis		(DOAP)EN.4.2- describe the clinical features, choose the correct investigations and describe the principles of management of diseases of external ear (SDL) EN.4.51 care of a patient with tracheostomy (stoma care, suction, management of cuff) Describe care of a patient with tracheostomy
13.	Tuesday 28 January 2025	COLLEGE DAY		COLLEGE DAY		COLLEGE DAY COLLEGE DAY
14.	Wednesday 29 January 2025	OG8.1 SGD Discuss the objectives of antenatal care & screening for high-risk factors		EN1.2 describe anatomy of external ear EN 1.3 describe anatomy of middle ear		IM 21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therapy.

15.	Thursday 30 January 2025	PE10.1 PE10.2 Discuss Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM) Clinical approach to a child with SAM and MAM(INTEGRATION-Physio)		15.2 & 35.14 SGD Observe and assist in the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment		CM 7.7 Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures.
16.	Friday 31 January 2025	IM 20.8 Describe the diagnosis, initial approach stabilization and therapy of scorpion envenomation		FM 2.23 Drowning		OP 2.4 (SGD) Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis OP 2.5 (SGD) Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis OP 2.6 (SGD) Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis OP 2.7 (SGD) Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumour
17.	Saturday 1 February 2025	PS 4.1 Psychotic disorders (Describe the magnitude and etiology of alcohol and substance use Disorders)		CM 3.5 B Identify and discuss physician's role and responsibility to society and the community that she/he serves.		SGD SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis

18.	Sunday 2 February 2025					
19.	Monday 3 February 2025	OG 1.3 Define and discuss the Still birth (Integration-Forensic Medicine)		<p>OP 2.6 (L) Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis</p> <p>OP 2.7 (L) Classify the various types of orbital tumors. Differentiate the symptoms and signs of the presentation of various types of ocular tumours</p> <p>OP 2.8 List the investigations helpful in diagnosis of orbital tumors</p> <p>OP 36.1 (L) Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma</p>		<p>(DOAP)EN4.1-desctibe the clinical features, choose the correct investigations and describe the principles of management of otalgia</p> <p>(DOAP)EN.4.2- describe the eustachian tube anatomy, physiology, and function test</p>
20.	Tuesday 4 February 2025	Define and describe the aetiology and pathogenesis of surgical infection		CM7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases		<p>FM 3.6 Injury (SGD)</p> <p>FM 3.8 Types of weapons</p> <p>FM 3.9 FIREARM INJ</p>
21.	Wednesday 5 February 2025	OG 8.3 DOAP Demonstrate and perform an obstretical examination including a general and abdominal examination.		EN 1.4 describe the salient features of anatomy of internal ear including labyrinth, inner ear fluids, internal auditory canal, organ of Corti,bloodsupply.		IM 20.1 Describe the initial approach to the stabilization of the patient who presents with poisoning.

22.	Thursday 6 February 2025	PE20.7 PE20.9 Discuss the etiology, clinical features and management of Birth injuries. Discuss the etiology, clinical features and management of Birth asphyxia	8.6 DOAP Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy	CM 6.1 Formulate a research question for a study
23.	Friday 7 February 2025	IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host.	FM 2.24 Thermal Deaths	OP 2.8 (SGD) List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral OP 3.1 (DOAP) Elicit document t and present an appropriate history in a patient presenting with a “red eye” including congestion, discharge, pain OP 3.2 (DOAP) Demonstrate document and present the correct method of examination of a “red eye” including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness OP 3.3 (SGD) Describe the etiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis
24.	Saturday 8 February 2025	PS 5.1 Psychotic disorders (Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders)	CM 3.5 B Identify and discuss physician’s role and responsibility to society and the community that she/he serves.	SU 4.4 Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care
25.	Sunday 9 February 2025			

26.

**Monday
10
February
2025**

OG 8.4(a) Describe and demonstrate clinical monitoring of fetus and maternal wellbeing during antenatal period (Antenatal care)

OP 3.4 (L) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma

OP 3.5 (L) Describe the aetiology, Pathophysiology ocular features, differential diagnosis, complications and management of vernal catarrh

OP 3.6 (L) Describe the aetiology, Pathophysiology, ocular features, differential diagnosis, complications and management of pterygium

(DOAP)EN.4.3-describe the clinical features, choose the correct investigations and describe the principles of management of ASOM

(DOAP)EN.4.3-describe the clinical features, choose the correct investigations and describe the principles of management of ASOM

27.	Tuesday 11 February 2025	SU 16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery		CM7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases	FM 3.10 Firearm injuries FM 3.11 Regional Injuries
28.	Wednesday 12 February 2025	OG8.4 SGD Discuss antenatal fetal monitoring		EN.1.6 describe the physiology of hearing, conduction of sound, transformer mechanism of middle ear, neurotransmission of sound	IM24.4 SGD Enumerate the indications of enteral and parenteral nutrition in critically ill patients
29.	Thursday 13 February 2025	PE20.8 Respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn		17.1 SGD Discuss the physiology of lactation.	CM 6.2 Describe and discuss the principles and demonstrate the Methods of collection, classification, analysis, interpretation and presentation of statistical data
30.	Friday 14 February 2025	IM 20.4 Describe the initial approach to the stabilization of patient who presents with snake bite.		FM 2.25 Electrocutation	OP 3.4 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma. OP 3.5 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh OP 3.6 (SGD) Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium OP 3.7 (SGD) Describe the aetiology, pathophysiology, ocular features, differential

					diagnosis, complications and management of symblepharon
31.	Saturday 15 February 2025	PS 5.3 Psychotic disorders (Describe the treatment of schizophrenia including behavioral and pharmacologic therapy)		CM 3.5 B Identify and discuss physician's role and responsibility to society and the community that she/he serves.	SU12.2 Methods of estimation and requirement of fluid, Electrolyte in a surgical patient
32.	Sunday 16 February 2025				
33.	Monday 17 February 2025	OG 8.4 (b) Describe and demonstrate clinical monitoring during intrapartum period.		OP 4.1 (L) Enumerate, describe and discuss the types and causes of corneal ulceration OP 4.2 (L) Enumerate and discuss the differential diagnosis of infective Keratitis OP 4.3 (L) Enumerate the causes of corneal edema OP 4.4 (L) Enumerate the causes and discuss the management of dry eye OP 4.7 Enumerate the indications and describe the methods of tarsorrhaphy OP 4.5 (L) Enumerate the causes of corneal blindness OP 4.9 (L) Describe and discuss the importance and protocols involved in eye donation and eye banking	(DOAP)EN1.5-describe the important aspects of physiology of vestibular system (SDL) EN.4.30.4 describe the principles of management of epistaxis including resuscitation, local measures, nasal packing

34.	Tuesday 18 February 2025	Perioperative management of common surgical procedure	CM 7.3 Enumerate, describe and discuss the sources of epidemiological data CM 7.4 Define, calculate and interpret morbidity and mortality indicators based on given set of data	FM 3.11 Regional Injcont FM 3.11 Vert Integration Regional Inj (Sx Ortho)
35.	Wednesday 19 February 2025	OG8.4 DOAP Demonstrate the intranatal fetal monitoring	EN 4.6-describe the clinical features choose the correct investigations and describe the principles of management of discharging ear	IM 21.7 Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti-snake venom.
36.	Thursday 20 February 2025	PE20.10 PE20.19 Neonatal hyperbilirubinemia Discuss Hemorrhagic disease of New born	20.2(b) DOAP In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy (Integration with forensic medicine-H)	CM 6.3 Describe, discuss, and demonstrate the application of Elementary statistical methods including test of significance in various study designs
37.	Friday 21 February 2025	IM 6.18 Enumerate the indications and discuss prophylactic drugs used to prevent HIV related opportunistic infections	FM 2.26 Starvation	OP 3.8 (DOAP) Demonstrate correct technique of removal of foreign body from the eye in a simulated environment OP 3.9 (DOAP) Demonstrate the correct technique of instillation of eye drops in a simulated environment OP 4.1 (SGD) Enumerate, describe and discuss the types and causes of corneal ulceration OP 4.2 (SGD) Enumerate and discuss the differential diagnosis of infective Keratitis

38.	Saturday 22 February 2025	PS 6.1 Depression (Classify and describe the magnitude and etiology of depression)		FM (AET) 14.5 PM Demonstration	Management of Paediatric forearm fractures Difference between paediatric and adult fractures
39.	Sunday 23 February 2025				
40.	Monday 24 February 2025	OG 20.1, Describe and discuss the legal aspects, indication and methods of MTP in first and second trimester. (integration forensic medicine)		OP 6.1(L) Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non granulomatous inflammation.	(SDL) EN.2.8 interpret pure tone audiogram and impedance audiogram (SDL) EN.2.15 describe the national programmes for prevention of deafness, cancer, noise and environmental pollution
41.	Tuesday 25 February 2025	OR 2.4.2 "Describe and discuss the mechanism of injury, clinical features, investigations and plan management of fracture of fracture of shaft of humerus with emphasis on neurovascular deficit."		CM 7.5 Enumerate, define, describe and discuss epidemiological study designs	FM 3.12 Head injuries FM 3.12 Head injuries
42.	Wednesday 26 February 2025	GH		GH	GH
43.	Thursday 27 February 2025	PE20.11 Low birth weight (preterm and Small for gestation)		17.2 DOAP Counsel in a simulated environment, care of the breast, importance and technique of breast feeding	CM 6.3 Describe, discuss, and demonstrate the application of Elementary statistical methods including test of significance in various study designs

44.	Friday 28 February 2025	IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia		FM 2. 27-28 Infanticide and IUD	OP 4.3 (SGD) Enumerate the causes of corneal edema OP 4.4 (SGD) Enumerate the causes and discuss the management of dry eye OP 4.5 (SGD) Enumerate the causes of corneal blindness OP 4.6 (SGD) Enumerate the indications and the types of keratoplasty
45.	Saturday 1 March 2025	PS 7.1 Bipolar disorders (Classify and describe the magnitude and etiology of bipolar Disorders)		FM (AET) 14.5 PM Demonstration	SU 12.1 SGD Enumerate the causes and consequences of malnutrition in the surgical patient
46.	Sunday 2 March 2025				
47.	Monday 3 March 2025	OG 21.1(a) Describe and discuss the indications, technique, complications, selection of patient, side effects and failure rate of temporary method of contraception		OP 6.2 (L) Identify and Distinguish acute Iridocyclitis from chronic iridocyclitis OP 6.3 (L) Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestation OP 6.4 (L) Describe and Distinguish hyphema and hypopyon 6.5(L) Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	(DOAP)EN.4.21-describe the clinical features, investigations and principles of management of tinnitus (DOAP)EN.4.21-describe the clinical features, investigations and principles of management of tinnitus

48.	Tuesday 4 March 2025	SU11.4 Enumerate the indications and principles of day care General Surgery	CM 7.5 Enumerate, define, describe and discuss epidemiological study designs	FM 3.13 SEXUAL Offences FM 3.14-15 Examination of Survivor & Accused
49.	Wednesday 5 March 2025	OG14.1 DOAP Enumerate and discuss the diameters of maternal pelvis and fetal skull	EN.4.7-describe the clinical features, choose the correct investigations and describe the principles of management of tubotympanicssom	IM 22.5 Enumerate the commonly observed drug overdose in your area and describe their toxicology, clinical features, prognosis and approach to therapy.
50.	Thursday 6 March 2025	PE20.16 PE20.17 Discuss the etiology, clinical features and management of Perinatal infectionsNeonatal Sepsis	34.4(a) SGD Perform the steps of surgical scrubbing	CM6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion
51.	Friday 7 March 2025	IM 6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions	FM 2.29-2.32 Doctor in court	OP 4.7 (SGD) Enumerate the indications and describe the methods of tarsorrhaphy OP 4.8 (DOAP) Demonstrate technique of removal of foreign body in the cornea in a simulated environment OP 4.9 (SGD) Describe and discuss the importance and protocols involved in eye donation and eye banking OP 4.10 (SGD) Counsel patients and family about eye donation in a simulated Environment
52.	Saturday 8 March 2025	PS 7.4 Bipolar disorders (Describe the treatment of bipolar disorders including behavioral and pharmacologic therapy)	FM (AET) 14.5 PM Demonstration	SU 19.2 Describe the Principles of reconstruction of cleft lip and palate
53.	Sunday			

	9 March 2025				
54.	Monday 10 March 2025	OG 21.1 (b) Describe and discuss the indications, technique, complications, selection of patient, side effects and failure rate of permanent method of contraception and emergency contraception.		OP 6.6(L) Enumerate and discuss the etiology, the clinical Distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigation and treatment for patients with above conditions.	(DOAP)EN.4.19.4- describe the clinical features, investigations and principles of management of meiner's disease
55.	Tuesday 11 March 2025	SU13.1 Describe the immunological basis of organ transplantation		CM 7.5 Enumerate, define, describe and discuss epidemiological study designs	FM 3,16 REPORT WRITING OF SEXUAL ASSAULT FM 3,16 REPORT WRITING OF Unnatural Sexual Offence
56.	Wednesday 12 March 2025	OG14.1 SGD Discuss the various types of maternal pelvis		EN.8.5-describe the clinical features, choose the correct investigations and describe the principles of management of extra cranial complications of csom	IM 6.14 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions in a patient suffering from HIV/AIDS
57.	Thursday 13 March 2025	GH		GH	GH
58.	Friday 14 March 2025	GH		GH	GH

59.	Saturday 15 March 2025	PS 8.1 Anxiety disorders (Enumerate and describe the magnitude and etiology of anxiety Disorders)		FM (AET) 2.18 Crime scene investigation	SU 4.1 SGD Describe Pathophysiology of Burns
60.	Sunday 16 March 2025				
61.	Monday 17 March 2025	OG 9.1 Enumerate the causes of first trimester bleeding. Classify, define & discuss the etiology and management of abortion including threatened/ incomplete/missed/septic/in evitable abortion		OP 8.1 (L) Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina OP 8.3 (L) Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing abnormal retinal exam	(DOAP)EN.4.21.4- describe the clinical features, investigations and principles of management of acoustic neuroma
62.	Tuesday 18 March 2025	Describe classification of hospital waste and appropriate methods of disposal.		CM 7.5 Enumerate, define, describe and discuss epidemiological study designs	FM 3.18 VIRGINITY, LEGITIMACY FM 3.19 Pregnancy
63.	Wednesday 19 March 2025	OG8.5 DOAP Demonstrate the pelvic assessment in a model		EN.8.6- describe the principles of management of intracranial complications of csom	IM 6.15 Discuss and describe the pathogenesis of IRIS and its management.
64.	Thursday 20 March 2025	PE30.1 PE30.2 Meningitis in children Distinguish bacterial, viral		34.4(b) SGD Discuss the technique and complications of endometrial aspiration, ECC and cervical biopsy	CM6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical

		and tuberculous meningitis (INTEGRATION-Micro)			methods, frequency distribution, measures of central tendency and dispersion
65.	Friday 21 March 2025	IM 6.1 Describe and discuss the symptoms and signs of acute HIV seroconversion.		FM 2.23-2.24 Mass disaster	<p>OP 5.1 (SGD) Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis</p> <p>OP 5.2 (SGD) Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis</p> <p>OP 6.1 (SGD) Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition</p> <p>OP 6.2 (SGD) Identify and distinguish acute iridocyclitis from chronic iridocyclitis</p>
66.	Saturday 22 March 2025	PS 8.4 Anxiety disorders (Describe the treatment of anxiety disorders including behavioral and pharmacologic therapy)		FM (AET) 14.5 PM Demonstration	Management of colle's fracture
67.	Sunday 23 March 2025				

68.	Monday 24 March 2025	OG 9.3 Discuss the etiology, clinical features, differential diagnosis of acute abdomen in early pregnancy[with a focus on ectopic pregnancy] and enumerate the principles of medical and surgical management.		OP 8.4 (L) Enumerate and discuss treatment modalities in management of diseases of the retina OP 8.5 (L) Describe and discuss the correlative anatomy, aetiology, clinical manifestations diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway		(DOAP)EN.4.21.5- describe the clinical features, investigations and principles of management of aural tumors
69.	Tuesday 25 March 2025	OR2.7 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigation and principles of management of pelvic injuries with emphasis on hemodynamic instability Management		CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential Infections laboratory tests at the primary care level for communicable diseases		FM 3.20-3.21 Disputed paternity FM 3.22 IMPOTENCY/STERILITY
70.	Wednesday 26 March 2025	OG13.1 SGD Discuss the physiology of normal labor		EN.4.10- describe the indications for and steps involved in myringotomy and myringoplasty		IM 6.13 Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea in a patient suffering from HIV/AIDS
71.	Thursday 27 March 2025	PE30.8 Epilepsy in children		19.4, 35.15 DOAP Enumerate the indications for, describe the steps in the insertion and removal of an intrauterine device in a simulated environment		CM6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion
72.	Friday 28 March 2025	IM 6.2 Define and classify HIV AIDS based on the CDC criteria.		FM 4.1-4.4 Medical Ethics		OP 6.7 (SGD) Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.

					<p>OP 6.8 (SGD) Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea</p> <p>OP 6.9 (SGD) Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions</p> <p>OP 6.10 (DOAP) Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment</p>
73.	Saturday 29 March 2025	<p>PS 9.1 Stress related disorders</p> <p>(Enumerate and describe the magnitude and etiology of stress related disorders)</p>		FM (AET) 2.19 Anaesthetic deaths	Describe and discuss the aetiopathogenesismechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on immobilisation of patients
74.	Sunday 30 March 2025				
75.	Monday 31 March 2025	GH		GH	GH
76.	Tuesday 1 April 2025	SU17.3 Describe the Principles in management of mass Casualties		CM 8.3 Enumerate and describe specific National Health Programs including their prevention and treatment of a case	<p>FM 3.22-3.25 CONTRACEPTION</p> <p>FM 3.26-2.27 ART/MTP ACT</p>

77.	Wednesday 2 April 2025	OG20.3 SGD Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNDT) Act 1994 & its amendments	EN.4.11- numerate the indications , describe the steps of mastoidectomy	IM 6.3 Describe and discuss the relation between CD4 count and risk of opportunistic infections.
78.	Thursday 3 April 2025	PE30.9 Floppiness in an infant and children	34.2(a) SGD Discuss age wise differential diagnosis of an adnexal mass	CM 8.4 Describe the principles and enumerate the measures to control a disease epidemic
79.	Friday 4 April 2025	IM 6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies.	FM 4.5-4.6 Rights and Duties of doctors	OP 7.1 (SGD) Describe the surgical anatomy and the metabolism of the lens OP 7.2 (SGD) Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract OP 7.3 (DOAP) Demonstrate the correct technique of ocular examination in a patient with cataract OP 7.4 (DOAP, SGD) Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery
80.	Saturday 5 April 2025	PS 9.4 Stress related disorders (Describe the treatment of stress related disorders including behavioural and psychosocial therapy)	FM (AET) 14.5 PM Demonstration	Describe and discuss the clinical features of hypo and hyperparathyroidism and the principles of their management
81.	Sunday 6 April 2025			

82.	Monday 7 April 2025	OG 9.4 Classify GTD ; Clinical features, laboratory investigations, USG, differential diagnosis, principles of management and follow-up of molar pregnancy	<p>OP 9.2 (L) Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus</p> <p>OP 9.3 (L) Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral</p> <p>OP 9.4 (L) Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision2020)</p> <p>OP 9.5 (L) Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication or referral in a patient with ocular injury</p>		(DOAP)EN4.14.- describe the clinical features, investigations and management of conductive/sensorineural hearing loss
83.	Tuesday 8 April 2025	SU11.1 Enumerate the Indications and principles of day care General Surgery	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases		FM 3.24-3.25 CONTRACEPTION FM 3.26-2.27 ART/MTP ACT
84.	Wednesday 9 April 2025	OG23.1 SGD Discuss the physiology of puberty, features of abnormal puberty, common problems and their management	EN4.13 - describe the clinical features, investigations and management of otosclerosis		IM 5.1 SGD Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia.
85.	Thursday	GH	GH		GH

	10 April 2025				
86.	Friday 11 April 2025	IM 14.1 SDL Define and measure obesity as it relates to the Indian population.		FM 4.8-10 COPRA & Doctors & Media	<p>OP 7.5 (DOAP) To participate in the team for cataract surgery</p> <p>OP 7.6 (DOAP) Administer informed consent and counsel patients for cataract surgery in a simulated environment</p> <p>OP 8.1 (SGD) Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina</p> <p>OP 8.2 (SGD) Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)</p> <p>OP 8.3 (SGD) Demonstrate the correct technique of a fundus examination and describe and distinguish the funduscopic features in a normal condition and in conditions causing an abnormal retinal exam</p> <p>OP 8.4 (SGD) Enumerate and discuss treatment modalities in management of diseases of the retina</p>
87.	Saturday 12 April 2025	<p>PS 10.1 Somatoform disorders</p> <p>(Enumerate and describe the magnitude and etiology of somatoform, dissociative and conversion disorder)</p>		FM (AET) 2.35 Professionalism in autopsy	<p>SGD SU22.2 Describe the etiopathogenesis of thyroidal swellings</p> <p>SGD SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland.</p>
